

Boxin' Buddies

IST 659 Final Report(Group 10)

About Boxin' Buddies:

Boxin' Buddies is a web-based application that simplifies the process of package delivery. It connects package senders with travelers who can pick up and deliver their packages to their desired destinations, providing a secure and efficient platform for managing package delivery.

The application offers a range of features such as package tracking, payment processing, and user ratings to ensure that transactions are safe and reliable. It utilizes a database management system to ensure reliable and efficient storage and management of data, allowing for quick access to information and smooth functioning of the system.

Using a web-based application allows for easy access and use by users from any location with an internet connection, making it convenient for both package senders and travelers. The integration of payment processing and user ratings encourages trust and accountability among users.

Overall, Boxin' Buddies is an innovative solution to streamline the package delivery process, utilizing a database management system to ensure reliable and secure management of data.

Why we selected this project?

The Boxin' Buddies project was selected for several reasons. Firstly, it offers a cost-effective and convenient solution to package delivery, which can often be time-consuming and expensive. Secondly, it provides an opportunity to incorporate advanced technologies such as web-based applications and database management systems, which are in high demand in today's digital era. Finally, the project addresses a real-world problem that affects people on a daily basis, making it practical and relevant. Overall, the Boxin' Buddies project was chosen for its innovative solution, incorporation of advanced technologies, and practical relevance.

Boxin' Buddies

Business problem:-

Boxin' Buddies addresses the problem of expensive and time-consuming package delivery. By connecting senders with travelers, it offers a cost-effective and convenient solution. The project includes package tracking and payment processing features, addressing issues of reliability and convenience. Ultimately, Boxin' Buddies aims to provide an efficient and reliable package delivery solution, resulting in increased customer satisfaction and loyalty.
